@thagomizer_rb

WHERE IN THE WORLD IS GORBY PUFF?

@thagomizer_rb

Hanging out with my new stone friend.
He tells me that cars are high in iron.

I like sitting on his head and chirping at birds that fly by. One day I'll catch one. One day.

Gorby

@thagomizer_rb

WHERE IS GORBY?

Google Cloud Vision

```
gem install gcloud
```

```
require "gcloud/vision"

gc = Gcloud.new("postcards-from-gorby",
                "./private-key.json")
v = gc.vision
i = v.image "./postcard-one.jpg"
a = v.annotate i, landmarks: 1

puts "Description:"
puts a.landmark.description
puts "Location:"
puts a.landmark.locations
```

```ruby
require "gcloud/vision"

gc = Gcloud.new("postcards-from-gorby",
                "./private-key.json")
v = gc.vision
i = v.image "./postcard-one.jpg"
a = v.annotate i, landmarks: 1

puts "Description:"
puts a.landmark.description
puts "Location:"
puts a.landmark.locations
```

```ruby
require "gcloud/vision"

gc = Gcloud.new("postcards-from-gorby",
                "./private-key.json")
v = gc.vision
i = v.image "./postcard-one.jpg"
a = v.annotate i, landmarks: 1

puts "Description:"
puts a.landmark.description
puts "Location:"
puts a.landmark.locations
```

```ruby
require "gcloud/vision"

gc = Gcloud.new("postcards-from-gorby",
                "./private-key.json")
v = gc.vision
i = v.image "./postcard-one.jpg"
a = v.annotate i, landmarks: 1

puts "Description:"
puts a.landmark.description
puts "Location:"
puts a.landmark.locations
```

```
require "gcloud/vision"

gc = Gcloud.new("postcards-from-gorby",
                "./private-key.json")
v = gc.vision
i = v.image "./postcard-one.jpg"
a = v.annotate i, landmarks: 1

puts "Description:"
puts a.landmark.description
puts "Location:"
puts a.landmark.locations
```

```

@thagomizer_rb

I SAW A CAT MATCHING THAT DESCRIPTION.

HE TOLD ME TO GIVE YOU THIS.

@thagomizer_rb

Tenderlove left a list of countries he likes to visit laying around our apartment.

Do you have any idea what this sign says?

Gorby

@thagomizer_rb

Text Detection

```
require "gcloud/vision"

gc = Gcloud.new("postcards-from-gorby",
                "./private-key.json")
v = gc.vision
i = v.image "./postcard-three.jpg"
a = v.annotate i, text: 1

puts "Text"
puts a.text.text
puts "Locale"
puts a.text.locale
```

```ruby
require "gcloud/vision"

gc = Gcloud.new("postcards-from-gorby",
                "./private-key.json")
v = gc.vision
i = v.image "./postcard-three.jpg"
a = v.annotate i, text: 1

puts "Text"
puts a.text.text
puts "Locale"
puts a.text.locale
```

```ruby
require "gcloud/vision"

gc = Gcloud.new("postcards-from-gorby",
                "./private-key.json")
v = gc.vision
i = v.image "./postcard-three.jpg"
a = v.annotate i, text: 1

@thagomizer_rb

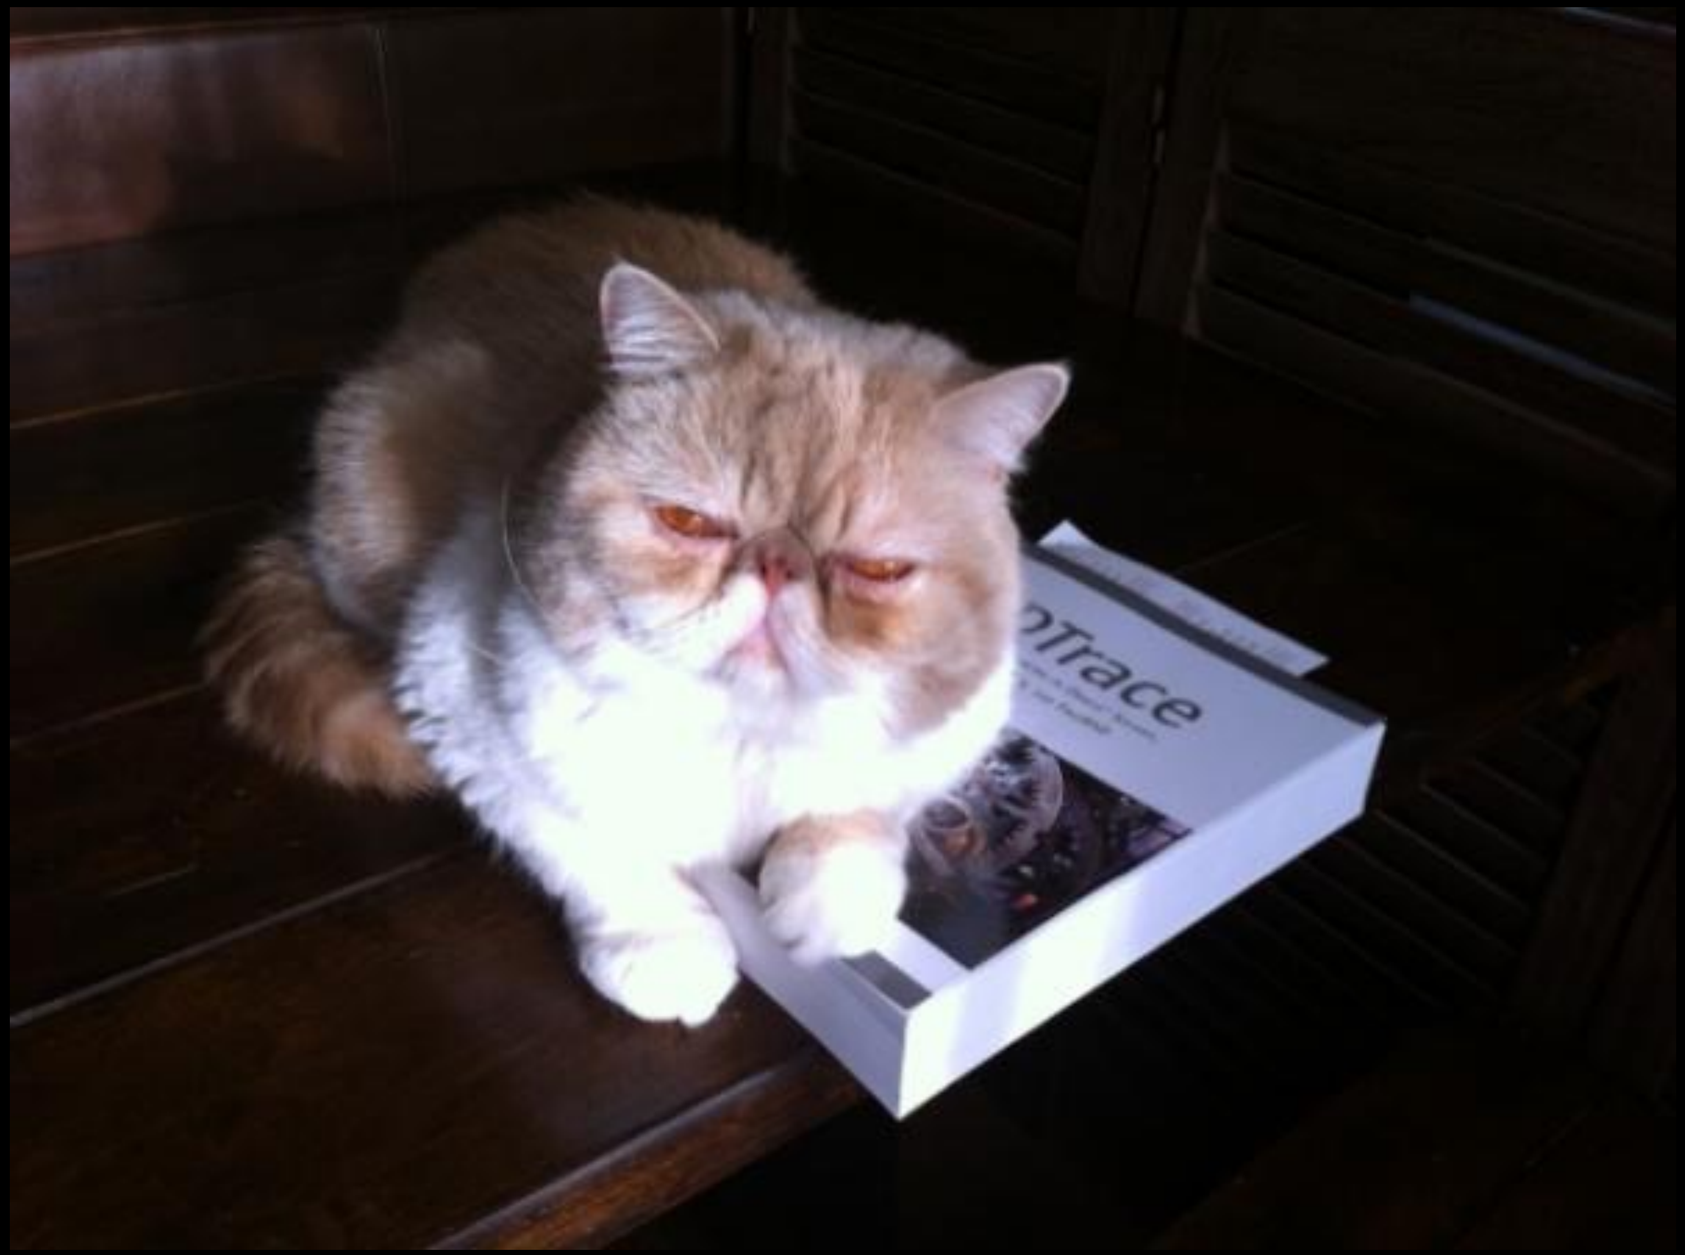
THE CAT YOU ARE LOOKING FOR WAS HERE.

HE'S BEEN HITTING THE BOOKS.



@thagomizer_rb

What place on earth had the hottest temperature on

I've been practicing for my pub trivia.
I'm much better at that than karaoke.

How'd I do?

Gorby

@thagomizer_rb

BigQuery

SQL

GSOD

Global Surface Conditions Of the Day

Schema

```
station_number
year
month
day
mean_temp
```

```
SELECT station_number, mean_temp
FROM [bigquery-public-
data:samples.gsod]
WHERE year = 2000
   AND month = 5
   AND day = 4
ORDER BY mean_temp DESC
```

station_number	mean_temp

@thagomize

I've been enjoying my world tour. Lots of people to meet and head butt. Many belly rubs. You know how it is. After all, I'm internet famous.

Last stop. Can you figure out where I am?

Gorby

@thagomizer_rb

```ruby
require "gcloud/vision"

gc = Gcloud.new("postcards-from-gorby",
                "./private-key.json")
v = gc.vision
i = v.image "./postcard-five.jpg"
a = v.annotate i, landmarks: 1

puts "Description:"
puts a.landmark.description
puts "Location:"
puts a.landmark.locations
```
